

bekende Grand Prix-springpaard Fontan (Farn) van Hauke Schmidt gefokt uit de merrie Rosa (Gondolier). Rosa kennen we ook als moeder van de goedgekeurde hengst Rinaldo (Ramiro Z) die in de fokkerij met name invloed heeft via zijn bekende zoon Reichsgraf.

The talented Holstein CONAN Z was one of the most noteworthy showjumpers at the studbook Zangersheide stallion selection at the start of 2002 where he was

approved for stud duty. CONAN Z is a son of the early deceased stallion Concerto II. This Contender son - from the highly acclaimed Holstein 'prestatie' lineage no. 6893 - produced, in his short period as a stud, a great number of showjumpers of quality; the oldest standing in the wings of international jumping. CONAN Z descends from the mare Sanina (Caletto I) of Holstein lineage no. 4956. Sanina is none other than the dam of the world famous international showjumper Goliath (Capitol I) with which Marc van Dijk, among others, was member of the winning Belgian team at the famous Nations Cup in Aachen in 2001. Alongside this, Sanina produced the international showjumper Capital W (Capitol I) with which Thomas Schepers made such furor. Grandam Judika I (Follywise XX) is, just as the famous Grand Prix showjumper Fontan (Farn) under Hauke Schmidt, bred out of the mare Rosa (Gondolier). Rosa is familiar to us as dam to the licensed stallion Rinaldo (Ramiro Z) who is influential in breeding, above all, through his well known son Reichsgraf.

*Verlost Goliath - halfbroer*
